THE FUTURE OF WATER IN LA

North Hollywood West Monitoring Well 12

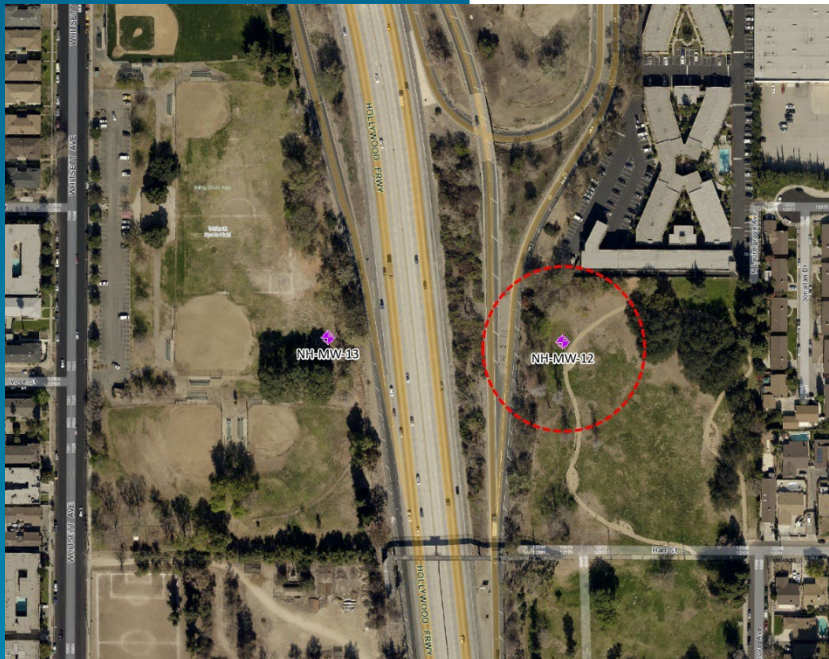

Project Description

On February 7, 2021
LADWP began construction
of a monitoring well

Hollywood West Wellhead
Treatment Facility.

Construction Information

Work will take place
Monday through Friday
from 7:00 a.m. to 7:00
p.m. This work is expected
to continue intermittently
until June 2022.

Project Schedule

February 2021-
June 2022

Region

North
Hollywood

located on the western
side of Valley Plaza Park.
This monitoring well will
be used for groundwater
testing around the
perimeter of the North

All work will be limited to
Los Angeles County
Department of Recreation
and Parks property. Park
access will not be affected,
with the exception of the
200-foot by 50-foot fenced
work area. Our team is
available to address any
questions or concerns.
