THE FUTURE OF WATER IN LA

North Hollywood West Monitoring Well 13

Project Description

On October 29, 2021 LADWP began construction of a monitoring well located on the

Following completion of this well, another will be constructed along the west side of Valley Plaza Park.

Construction Information

Work will take place Monday through Friday from 7:00 a.m. to 7:00 p.m. This work is expected to continue intermittently until March 2022.

All work will be limited to Los Angeles County Department of Recreation and Parks property. Park access will not be affected, with the exception of the 200-foot by 50-foot fenced work area. Our team is available to address any questions or concerns.

Project Schedule

October 2021-
March 2022

Region

North
Hollywood

eastern side of the Whitsett Sports Field. This monitoring well will be used for groundwater testing around the perimeter of the North Hollywood West Wellhead Treatment Facility.
