

386-ft Service Zone Flushing Schedule – 108ST

Date: 6/11/26 to 6/24/26, Monday-Friday

Time: 6:00 a.m. to 6:00 p.m.

As part of our commitment to provide high quality water and maintain the integrity of our water system, the Los Angeles Department of Water and Power (LADWP) will be conducting distribution mainline flushing in the 386-ft service zone (please see the area description below). The water service will not be interrupted during flushing, but water pressure may vary.

Water main flushing is a routine maintenance activity that involves cleaning distribution system pipes by forcing water through the mains at high speed and then expelling it, usually through fire hydrants. This process helps ensure continued water quality.

What to expect during flushing activities:

- Running water may occur along streets near flushing sites.
- Increased noise levels.
- Temporary lane closures and limited parking in active work areas.

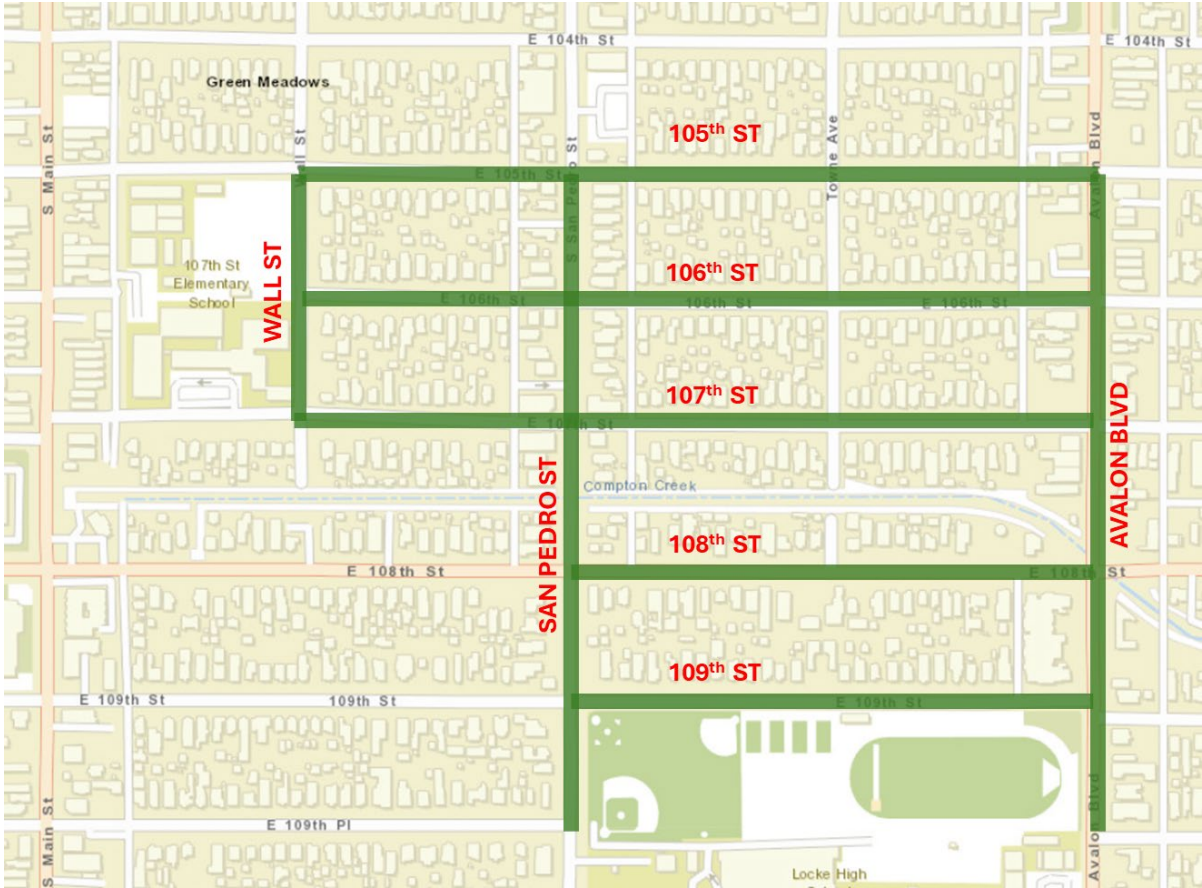

For the safety of the community and LADWP crews, temporary No-Parking restrictions may be posted and enforced by the Los Angeles Department of Transportation for the duration of the water main flushing. Please be mindful of any temporary parking restrictions so that vehicles parked/unattended are not ticketed or towed.

In addition to varying pressure, you may also notice murky or discolored water. This does not indicate a health risk and should not last more than an hour. Once flushing is complete in your area, we recommend running cold water from a faucet in your home or business for a few minutes to help clear any discolored water that may have entered your plumbing.

For more information or changes in schedule, please visit LADWP Water Quality website at www.ladwp.com/waterquality. If you have any questions or concerns regarding this project, please feel free to contact the LADWP Water Quality Hotline at (213) 367-3182, between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Holidays.

Description of Flushing Area:

The area is bounded by 105th St and 110th St between Wall St and Avalon Blvd.

386-ft Service Zone Flushing Schedule – 055ST

Date: 6/15/26 – 6/16/26 and 06/18/26

Time: 11:00 p.m. to 9:30 a.m.

Date: 6/17/26 and 6/20/26

Time: 4:00 am to 4:00 pm
