

**NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION  
FOR THE BROCKMAN LANDFILL REMEDIATION PROJECT**

**Date:** July 17, 2018

**To:** Agencies, Organizations and Interested Parties

**Subject:** Notice of Intent to Adopt a Mitigated Negative Declaration for the Brockman Landfill Remediation Project

An Initial Study/Mitigated Negative Declaration (IS/MND) has been prepared by the City of Los Angeles Department of Water and Power (LADWP) for the proposed Brockman Landfill Remediation Project. LADWP is the Lead Agency, pursuant to the California Environmental Quality Act (CEQA), responsible for preparation of this document.

**PROJECT DESCRIPTION**

The proposed project would remediate the Brockman Lane Disposal Site through waste reconsolidation, landfill cover, final grading, and re-seeding. Scattered surface and near-surface wastes and debris would be collected, recycled or placed within the existing landfill area, and subsequently capped with clay and soil. Covering the site wastes with a soil cover and re-seeding would help reduce the potential for scavenging, direct human contact, vectors, and wind-blown or stormwater runoff transported litter. Excess soil and boulders would be strategically stockpiled around the site perimeter and access roads to discourage illegal dumping and increase the level of security. After remediation is completed, the site fencing would be added to currently unfenced areas of the project site to restrict access to authorized users only, and signage would be added to the site perimeter directing the public to the appropriate facility for legal waste disposal.

**PROJECT LOCATION**

The project site is located in Inyo County, north of the intersection of Riverside Road and Brockman Lane, just northeast of Bishop, California. The project site occupies approximately 33.5 acres of open land that forms a portion of the southern edge of the Owens River Valley.

**PUBLIC COMMENT PERIOD**

The 30-day public comment period for the Notice of Intent (NOI) will commence on July 19, 2018, and conclude on August 20, 2018. The IS/MND is available for review on the LADWP

Agencies, Organizations and Interested Parties
