**Date:** June 12, 2014

**To:** Agencies, Organizations, and Interested Parties

**Subject:** Notice of Intent to Adopt a Mitigated Negative Declaration for the City Trunk Line South - Unit 3 Project (CTLS-3)

The Los Angeles Department of Water and Power (LADWP) prepared an Initial Study for the City Trunk Line South – Unit 3 Project. Based on the information contained in the Initial Study, LADWP intends to adopt a Mitigated Negative Declaration for the project under the California Environmental Quality Act (CEQA). LADWP is the CEQA Lead Agency for the project.

**Project Location:** The project site is located in the City of Los Angeles within the community of North Hollywood – Valley Village; specifically, within the public right-of-way of Whitsett Avenue from south of its intersection with Vanowen Street to north of the intersection of Magnolia Boulevard and Whitsett Avenue.

**Project Description:** The LADWP is proposing to construct the CTLS-3 from south of the intersection of Vanowen Street and Whitsett Avenue to South of the intersection of Magnolia Boulevard and Whitsett Avenue (proposed project). The proposed project would involve the installation of approximately 10,251 linear feet (approximately 1.94 miles) of new 60-inch welded steel pipe to serve as a potable water line in an urban portion of the North Hollywood – Valley Village area, within the City of Los Angeles. The proposed project also includes construction of appurtenant structures (e.g. maintenance/access holes, valves, and a cabinet) required for operation of the trunk line.

**Public Comment Period:** The 30-day public comment period commences on June 12, 2014, and concludes on July 11, 2014, at 5:00 p.m. A copy of the Initial Study will be posted at [www.ladwp.com/envnotices](http://www.ladwp.com/envnotices).
