PROJECT TITLE	LOG REFERENCE
Lugo-Victorville Transmission Line Upgrade Project	N/A
DDC HIGH LOCATION	
PROJECT LOCATION	
The project is located in the City of Victorville. See attached map.	
DESCRIPTION OF NATURE, PURPOSE, AND BENEF	ICIARIES OF PROJECT:
The Lugo-Victorville Transmission Line Upgrade Project consists of raising five transmission line towers by 25 feet.	
Tower raising activities will involve the use of cranes, boom lifts, and trucks carrying necessary equipment. The tower	
raisings will be accomplished by adding new steel segments to the existing towers. Prior to proceeding with the tower	
raising work, necessary crane pads and equipment access areas would be graded in the vicinity of each tower site. Road	
maintenance activities would also be required to ensure necessary equipment can safely access each work area. See	
attached map for the location of the tower raising sites and associate	ed access roads.

EXEMPT STATUS:	1,
CEQA Guidelines Article 19 Categorical Exemption Section 15301 Existing Facilities – Class 1	
JUSTIFICATION FOR PROJECT EXEMPTION:	
In accordance with the California Environmental Quality Act (CEQA), it has been determined that the raising of five	
towers on the Lugo - Victorville Transmission Line is exempt pursuant to the Categorical Exemption described in CEQA	
Guidelines Section 15301, Class 1, Existing Facilities. Class 1 includes the repair, maintenance, and minor alteration of	
publicly owned utilities used to provide electric power, involving n	egligible or no expansion of existing or former use.
